## Antirrhinum-Candy Showers

**Botanical:** *Antirrhinum majus*  
**Blooms:** autumn\spring\summer  
**Plant Habit:** Trailing  
**Height:** 20-25cm  
**Spread:** 30-35cm  
**Exposure:** Full sun\semi shade

**Description**  
 Great, new trailing snapdragon series, in six bright colours and a mix.  
 The trailing habit makes them ideal for beds, baskets and mixed containers.  
 A good option for cool season colour too.

## Bellis-Bellissima

**Botanical:** *Bellis perennis*  
**Blooms:** autumn\spring  
**Plant Habit:** Compact  
**Height:** 15-20cm  
**Spread:** 15-20cm  
**Exposure:** Full sun\semi shade

**Description**  
 Needs no vernalisation to flower, this is a robust, early flowering series giving strong landscape performance in cool climates.  
 Large, fully double flowers.

## Antirrhinum-Snapshot

**Botanical:** *Antirrhinum majus*  
**Blooms:** autumn\spring\summer  
**Plant Habit:** Compact  
**Height:** 15-25cm  
**Spread:** 25-30cm  
**Exposure:** Full sun\semi shade

**Description**  
 Earliness and good pack performance combined with strong garden performance.  
 Bushy compact plants with a 7 to 10 day flowering window across the colours.

## Calendula-Bon Bon

**Botanical:** *Calendula officinalis*  
**Blooms:** autumn\spring  
**Plant Habit:** Compact  
**Height:** 25-30cm  
**Spread:** 20-25cm  
**Exposure:** Full sun\semi shade

**Description**  
 Early flowering series produces large blooms on a compact plant.  
 Fast crop time 15 weeks from sowing. Blooms in shades of bright yellow, orange, apricot and soft yellow.

## Calendula-Fiesta Gitana

**Botanical:** *Calendula officinalis*  
**Blooms:** autumn\spring  
**Plant Habit:** Compact  
**Height:** 30cm  
**Spread:** 20-25cm  
**Exposure:** Full sun\semi shade

**Description**  
 Early flowering series produces large blooms on a compact plant. Fast crop time 15 weeks from sowing.

## Cineraria-Corsage

**Botanical:** *Senecio cruentus*  
**Blooms:** autumn\winter\early spring  
**Plant Habit:** Upright  
**Height:** 40-45cm  
**Spread:** 30-40cm  
**Exposure:** Full sun\semi shade

**Description**  
 Strong, upright plants with large, bright 7-8 cm blooms in a wide colour range. Excellent bedding variety. Flower colours include white, light blue, deep blue, deep pink, pale pink, purple and red.

## Cineraria-Satellite

**Botanical:** *Senecio cruentus*  
**Blooms:** autumn\winter\early spring  
**Plant Habit:** Upright  
**Height:** 15cm  
**Spread:** 25-30cm  
**Exposure:** Full sun\semi shade

**Description**  
 Grandiflora pot variety with a stunning 5cm blooms in a pure, bright colour range. Smaller leaves for high density pot production. Easy crop is 18 weeks from sowing to sale.

## Cineraria-Masquerade

**Botanical:** *Senecio cruentus*  
**Blooms:** autumn\winter\early spring  
**Plant Habit:** Compact  
**Height:** 25-30cm  
**Spread:** 20-25cm  
**Exposure:** Full sun\semi shade

**Description**  
 More compact version of Corsage with the same full colour range. Suitable for packs and bedding.

## Cineraria-Star Wars

**Botanical:** *Senecio cruentus*  
**Blooms:** autumn\winter\early spring  
**Plant Habit:** Upright  
**Height:** 20-25cm  
**Spread:** 25-30cm  
**Exposure:** Full sun\semi shade

**Description**  
 Star Wars features bicolours and shades and is a good complement to the pure colours in the Satellite series. 20 week crop time from sowing to sale.

## Diascia-Diamonte

**Botanical:** *Diascia barbarae*  
**Blooms:** spring\autumn  
**Plant Habit:** Upright  
**Height:** 25-30cm  
**Spread:** 30-35cm  
**Exposure:** Full sun\semi shade

## Nemesia-Poetry

**Botanical:** *Nemesia foetans*  
**Blooms:** spring\autumn  
**Plant Habit:** Upright  
**Height:** 30-35cm  
**Spread:** 25-30cm  
**Exposure:** Full sun

**Description**  
 Can be grown easily and economically. No pinching required to produce a full dense plant with delicate flowers.  
 Great choice for cool season colour.

**Description**  
 Three new colours in this easy to grow series. Better seed quality supplied as single seed pellets. Sow 4 pellets per cell for uniform emergence and full trays. Fast and easy to grow from seed or plug. Well branched, without the need for pinching, they provide great cool weather colour for packs and pots.

## Osteospermum-Akila

**Botanical:** *Osteospermum ecklonis*  
**Blooms:** spring\summer\autumn  
**Plant Habit:** Compact  
**Height:** 40-50cm  
**Spread:** 40-50cm  
**Exposure:** Full sun

**Description**  
 Akila is an excellent seed Osteospermum, with high germination, compact growth and short, 7 to 10 day flowering window across the colours.  
 No pinching or vernalisation required, suitable for high density pot and pack programs.

## Pansy-Matrix

**Botanical:** *Viola x wittrockiana*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 20cm  
**Spread:** 20-25 cm  
**Exposure:** Full sun

**Description**  
 Continual improvements and new colours are to this increasingly popular large flowered series. 7 day bloom window across all of the colours. Less stretching with superior branching gives great results.

## Pansy-Tumbles

**Botanical:** *Viola x wittrockiana*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Trailing  
**Height:** 12-20 cm  
**Spread:** 60-75 cm  
**Exposure:** Full sun

**Description**  
 The best spreading/trailing pansies on the market make incredible cool season baskets for autumn and early spring programs.  
 Also make a great groundcover in the garden. Blooms hold up in rain and weather better than larger flowered types.

## Pansy-MG II

**Botanical:** *Viola x wittrockiana*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 20cm  
**Spread:** 20-25cm  
**Exposure:** Full sun

**Description**  
 Extra large flowers on a compact plant, with superior lateral branching.  
 All of the well established MGII series have been upgraded.

## Pansy-Performer

**Botanical:** *Viola x wittrockiana*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 20cm  
**Spread:** 20-25 cm  
**Exposure:** Full sun

**Description**  
 Performer is a unique series of large flowered high quality, well priced pansies, ideal for green seedling sales. 19 colours available

## Polyanthus-Supernova

**Botanical:** *Primula polyantha*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 20 cm  
**Spread:** 20-25cm  
**Exposure:** Full sun

**Description**  
 Supernova provides uniform results and excellent show of colour on compact plants. Superior F1 seed quality provides high germination, vigour and results.

## Primula-Danessa

**Botanical:** *Primula acaulis*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 20cm  
**Spread:** 20-25cm  
**Exposure:** Full sun

**Description**  
 One of the earliest flowering series on the market. Requires no vernalisation for flower initiation, maintains a compact habit, perfect for pot tight production. Ideal for early season sales and warmer temperature areas.

## Primula-Pageant

**Botanical:** *Primula acaulis*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 10-15cm  
**Spread:** 15-20cm  
**Exposure:** Full sun

**Description**  
 A favourite early flowering series, broad colour range, ideal for early season production with minimal cool growing. Good quality plants and flowering window across the series.

## Primula-Paradise

**Botanical:** *Primula acaulis*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 10-15cm  
**Spread:** 15-20cm  
**Exposure:** Full sun

**Description**  
 Very early flowering Australian bred series with a great and unusual colour range. Excellent early season series.

## Primula-Sensation

**Botanical:** *Primula acaulis*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 10-15cm  
**Spread:** 15-20cm  
**Exposure:** Full sun

**Description**  
 An ideal companion series to Paradise, offering an early flowering mix in a wide range of shades and bicolours, including stripes, picotees, and solid eyes.

## Primula-Danova

**Botanical:** *Primula acaulis*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 10-20cm  
**Spread:** 15-20cm  
**Exposure:** Full sun

**Description**  
 Danovas short flowering window is ideal for early to mid season production. Strong range of colours, high seed quality, uniform plant habit across the series. The Growers Select mix offers a great range of colours with the best habits and tightest flowering window to guarantee success.

## Primula-Primlet / Doubles

**Botanical:** *Primula acaulis*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 10-15cm  
**Spread:** 15-20cm  
**Exposure:** Full sun

**Description**  
 Primlet features clusters of scented blooms that look like bouquets of mini roses. Work well in pots and small mixed containers for late winter and early spring sales.

## Ranunculus-Sprinkles

**Botanical:** *Ranunculus asiaticus*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 30-35cm  
**Spread:** 20-25 cm  
**Exposure:** Full sun

**Description**  
 Sprinkles is a new F1 series bred with a compact habit and featuring abundant and continual blooms on thick flower stems. Perfect for packs, 140 and 200mm flowering pots, there are six evenly matched colours in the mix including a pink bicolour.

## Primula-Touch Me

**Botanical:** *Primula obconica*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 25-30cm  
**Spread:** 25-30cm  
**Exposure:** Full sun

**Description**  
 Touch Me is primin free so is much easier to handle. The Touch Me series makes a great pot item for cool season colour. Nice neat habit with rounded foliage makes this a very attractive plant.

## Stock-Spellbound

**Botanical:** *Matthiola incana*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 38-50 cm  
**Spread:** 30-35 cm  
**Exposure:** Full sun

**Description**  
 Spellbound is an early flowering, compact, well branched series offering a high double flower percentage. No vernalisation required to trigger the flowering window. Unique colours, all with a beautiful fragrance.

## Viola-Sorbet

**Botanical:** *Viola cornuta*  
**Blooms:** autumn/winter/spring  
**Plant Habit:** Compact  
**Height:** 15-20 cm  
**Spread:** 15-25 cm  
**Exposure:** Full sun

**Description**  
 Sorbets offer a uniform plant habit and a tight bloom window across the series. They remain compact in both heat and cold. Wide range of over 40 colours and mixes.

## Broccoli-Assorted Lines
