Frizzle Sizzle

SERIES

OUTSTANDING FEATURES

The best trailing pansies for baskets and beds

Well established series have all been upgraded. Extra large flowers on a compact plant

Superior plant structure and most uniform series under long days

Specialty ruffled flower form

HABIT & VIGOUR

Vigorous plants ultimately spread up to 45 to 60 cm in the ground

Superior lateral branching fills pots and packs quickly. Maintain flower size under warm conditions

Less stretch due to unique plant architecture that grows out rather than up

Moderate vigour; upright, mounding habit

Frost

NEW Violet Wing

Scientific Name:
Viola x wittrockiana

Height: 15 to 20 cm

Spread: 60 to 75 cm

Available in:
288 and 512 plug trays

The best spreading/
trailing pansies on
the market make
incredible cool-season
baskets for Autumn
and early Spring
programs.

Also makes a great groundcover
in the garden.

Blooms hold up in rain
and weather better than
larger-flowered types.

Matrix®

Actual size: 9 cm

Pictured: Matrix Rose Wing

Scientific Name:
Viola x wittrockiana

Height: 20 cm

Spread: 20 to 25 cm

Available in:
288 and 512 plug trays

Superior plant architecture for holdability, and most uniform series under long days.

Similar habit, timing and performance across the series means less handling and simplified crop management.

A 7-day bloom window in Autumn production means all colours from the same sowing ship together.

Superior branching without stretching assures more flowers per plant so you can deliver a better-looking product at retail.

Large flowers for power

Matrix for longer days...

MATRIX CLEAR, BLOTCH & NOVELTY

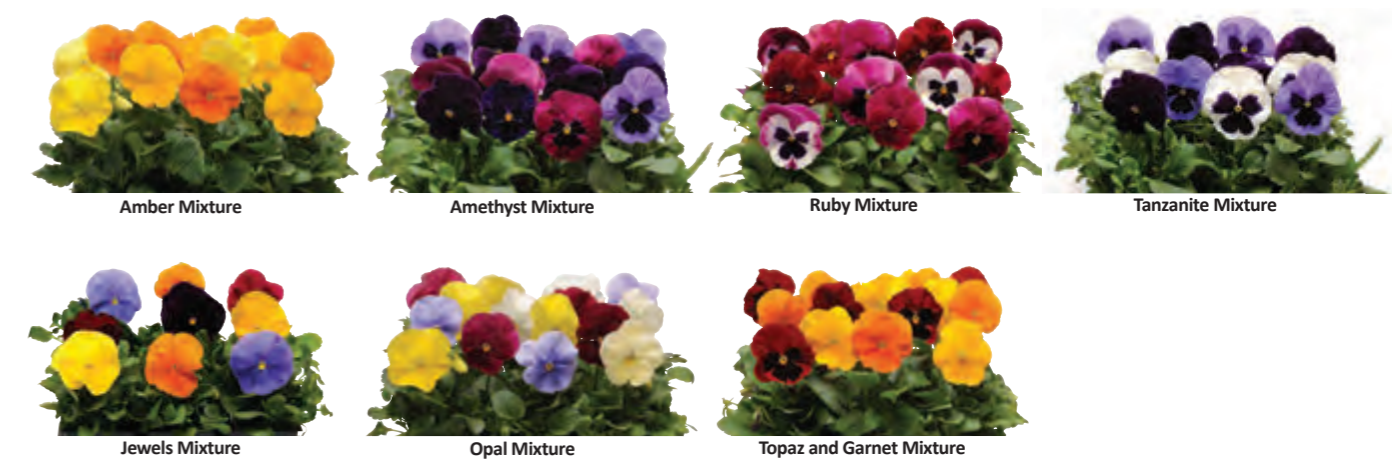

*Natural variation and colour interest.

Magic

Pictured: True Blue XP

Scientific Name:
Viola x wittrockiana

Height: 15 to 20 cm

Spread: 20 to 25 cm

Available in:
288 and 512 plug trays

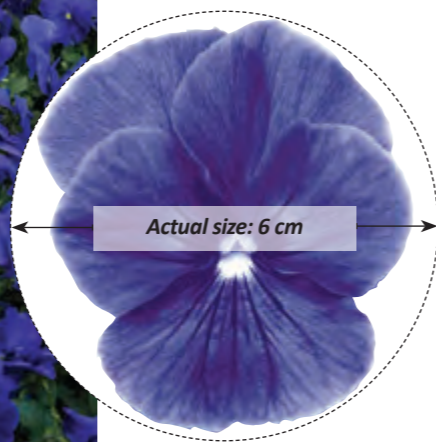

Bred to handle the weather, Magic is the ultimate multi-season landscape pansy.

5 to 7-day flowering window, uniform habit and shorter peduncles let you mix and match to create custom mixtures.

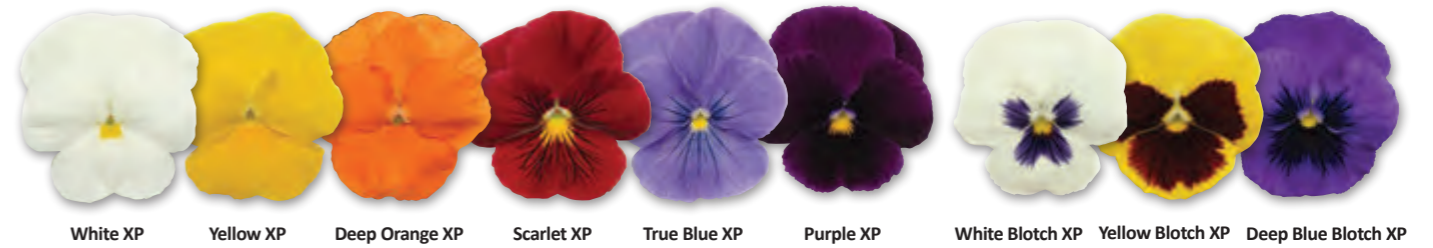

Magic outperforms other medium-flowered pansies in all kinds of conditions.

Early-blooming Magic is the best choice for overwintering guaranteed pansy programs.

Free-flowering, well-branched and compact plants maintain their garden height with less stretch in warm climates.

Sorbet®

Pictured: Sorbet Mix XP

Scientific Name:
Viola x wittrockiana

Height: 15 to 20 cm

Spread: 15 to 25 cm

Available in:
288 and 512 plug trays

Uniform Sorbet XP lets you send the best-looking violas to retail.

The most uniform plant habit and tightest flowering window in top-selling colours.

Fewer PGRs and superior holdability for more profit.

Plants cover the soil at flowering with less stretch for more blooms on every plant.

Performs in a range of climatic conditions with excellent overwintering – great for custom landscape mixes.

Scientific Name:
Viola x wittrockiana

Height: 15 to 20 cm

Spread: 15 to 25 cm

Available in:
288 and 512 plug trays

Sorbet Standards round out your offering with 23 more colours including novelties.

Standards have moderate vigour, but can be grown along with Sorbet XP.
