

SPRING seed highlights

flower and vegetable seed

Alyssum - Clear Crystal

Colours Available:

- Lavender Shades
- Purple Shades
- White
- Mix

Botanical: *Lobularia maritima*
Blooms: Spring, summer, autumn
Plant Habit: Upright compact
Height: 15-25cm
Spread: 30-35cm
Exposure: Full sun\part shade

The Clear Crystal series are tetraploids and have large flowers and strong performance in pots, large containers and garden beds. Good vigour, fragrance and little need for PGR's. Sold as multi seeded pellets.

Angelonia - Serenita

Colours Available:

- Lavender Pink
- Pink
- Purple
- Raspberry
- White
- Mix

Botanical: *Angelonia angustifolia*
Blooms: Late spring, summer
Plant Habit: Upright compact
Height: 30-35cm
Spread: 30-35cm
Exposure: Full sun

Serenita is a sister line to Serena and is a more compact variety. It is a water wise variety that loves the heat and humidity.

Glossy green leaves and loads of flower through summer, Serenita will remain compact in the pot and on the retail shelf, and no PGR's required. Good range of colours available.

Alyssum - Easter Bonnet

Colours Available:

- Deep Pink
- Deep Rose
- Lavender
- Violet
- White
- Pastel Mix
- Mix

Botanical: *Lobularia maritima*
Blooms: Spring, summer, autumn
Plant Habit: Upright compact
Height: 10-25cm
Spread: 25-30cm
Exposure: Full sun\part shade

Available in a full colour range, Easter Bonnet combines uniformity in habit and colour with earliness to flower. The compact plants are covered with fragrant dainty blooms. Plants stay neat and compact throughout the season.

Antirrhinum - Candy Showers

Colours Available:

- Deep Purple
- Orange
- Red
- Rose
- White **NEW**
- Yellow
- Mix **NEW**

Botanical: *Antirrhinum majus*
Blooms: Autumn\spring\summer
Plant Habit: Trailing
Height: 20-25cm
Spread: 30-35cm
Exposure: Full sun\semi shade

Great new trailing snapdragon series, in six bright colours and a mix. The trailing habit makes them ideal for beds, baskets and mixed containers. A good option for cool season colour too.

Antirrhinum - Snapshot

Colours Available:

- Burgundy
- Pink
- Rose
- Red Bicolour
- White
- Merlot Mix
- Orange
- Plumblossom
- Purple
- Red
- Yellow
- Mix

Bushy compact plants with a balance of earliness and good pack performance. Uniform flowering across the colours, closely spaced full flower spikes.

Botanical: *Antirrhinum majus*
Blooms: Autumn\spring\summer
Plant Habit: Upright
Height: 15-25cm
Spread: 25-30cm
Exposure: Full sun\part shade

Antirrhinum - Sonnet

Colour Available:

- Mix

Botanical: *Antirrhinum majus*
Blooms: Autumn\spring\summer
Plant Habit: Upright
Height: 25-30cm
Spread: 20-25cm
Exposure: Full sun\part shade

Fragrant garden height variety well suited to larger pot production or smaller pots and packs. Strong root system and sturdy side branching gives excellent garden performance.

Begonia - Baby Wing

Botanical: *Begonia x hybrida*
Blooms: Spring, summer
Plant Habit: Upright
Height: 30-40cm
Spread: 25-30cm
Exposure: Full sun\part shade

Maintenance free plants feature early flowering, continuous colour with small dragon wing foliage and long season performance. Heat and stress tolerant, great landscape and large container performance.

Begonia - Dragon Wing

Botanical: *Begonia x hybrida*
Blooms: Spring, summer
Plant Habit: Upright
Height: 30-40cm
Spread: 35-45cm
Exposure: Full sun\part shade

Unique and beautiful arching, pendulous habit is spectacular in baskets, large containers and landscape plantings. Large glossy green leaves show off the large flowers, with a long blooming window and vigorous growth. Great heat and cold tolerance.

Begonia - Gryphon

Botanical: *Begonia x hybrida*
Blooms: Spring, summer
Plant Habit: Upright
Height: 35-40cm
Spread: 40-45cm
Exposure: Part shade\shade

Showy foliage makes a great statement in mixed containers or as a specimen by itself. Easy to care for and with low water requirements, this strong and durable plant is versatile, can be used indoors or outdoors.

Begonia - Bossa Nova

Botanical: *Begonia x boliviensis*
Blooms: Spring, summer
Plant Habit: Trailing
Height: 30-40cm
Spread: 40-50cm
Exposure: Full sun\part shade

The Bossa Nova series is a strong alternative to vegetative begonias, with great vigour and strong branching. A long flowering season from spring through to the first frosts, they are easy to care for and self cleaning. Bright and showy, this variety is an excellent choice for baskets, containers and combinations.

Begonia Tuberous - Non Stop

Botanical: *Begonia x tuberhybrida*
Blooms: Spring, summer
Plant Habit: Compact
Height: 25-30cm
Spread: 20-25cm
Exposure: Part shade

Large, 10cm free flowering double and semi double blooms in a wide range of colours. Ideal for indoor or patio colour. Mocca foliage contrasts well against the blooms.

Begonia - Ambassador & Senator

Colours Available:
 Ambassador- Green Leaf
 • Pink • Scarlet
 • Rose • White • Mix
 Senator- Bronze Leaf
 • Bicolour • Pink • Rose
 • Scarlet • White • Mix

Botanical: *Begonia semperflorens*
Blooms: Spring, summer
Plant Habit: Compact
Height: 15-20cm
Spread: 20-25cm
Exposure: Full sun/part shade

Two compact, free flowering series of bedding begonias with excellent uniformity and great garden performance. Ideal for landscape, flowering packs and pots. Both series match well together.

Canna - Cannova

Lemon

Scarlet Bronze

Canna - Cannova

Botanical: *Canna x generalis*
Blooms: Spring, summer, autumn
Plant Habit: Upright
Height: 75-120cm
Spread: 35-50cm
Exposure: Sun

Cannova is the first F1 hybrid canna from seed. Versatile and easy to grow, it can be used in landscapes, containers and can be grown as a water plant. F1 vigour and disease resistant, Cannova will flower through spring and summer into autumn. An attractive plant even when not in flower.

Colours Available:
 • Red Shades NEW
 • Bronze Scarlet NEW
 • Lemon NEW
 • Rose NEW
 • Yellow NEW

Rose

Yellow

Capsicum - Chenzo

Botanical: *Capsicum annum*
Height: 25-30cm
Spread: 35-40cm

Compact plants covered in small black fruits which change to red on maturity. Fruit is hot.

Capsicum - Chilly Chilli

Botanical: *Capsicum annum*
Height: 23-25cm
Spread: 30-35cm

Non pungent, 5 to 5.5cm long fruit starting out greenish yellow and maturing to orange and dark red.

Capsicum - Medusa

Botanical: *Capsicum annum*
Height: 15-20cm
Spread: 10-15cm

Colourful, twisted 5 to 5.5cm long non pungent fruit on a compact well branched plant. Fruit colour is ivory, yellow, orange and bright red as it matures.

Capsicum - Sangria

Botanical: *Capsicum annum*
Height: 25-30cm
Spread: 40-45cm

Strong, spreading habit with loads of upright facing purple and red non pungent fruit.

Capsicum - Conga

Botanical: *Capsicum annum*
Height: 10-15cm
Spread: 15-20cm

Dark purple foliage is topped by attractive pointed purple fruit which matures to deep orange.

ornamental chilli

spring seed highlights

Chilli - Calico

Botanical: *Capsicum annum*
Height: 25-30cm
Spread: 35-40cm

Variegated purple, green and white foliage on a compact rounded plant with small glossy black fruit which matures to red. Fruit is very hot.

Chilli - Black Pearl

Botanical: *Capsicum annum*
Height: 35-45cm
Spread: 30-40cm

Bushy upright, well branched habit with deep green/black leaves and shiny black fruit maturing to red. Fruit is very hot.

Chilli - Tango

Colours Available:
 • Deep Orange
 • Red
 • Yellow

Botanical: *Capsicum annum*
Height: 10-20cm
Spread: 15-20cm

Tango is a vigorous compact series with medium sized fruit 4.5 x 2 cm, centred in the middle of the plant.

Celosia - Ice Cream

Botanical: *Celosia plumosa*
Blooms: Spring, summer
Plant Habit: Upright
Height: 30cm
Spread: 25cm
Exposure: Full sun

Colours Available:
 • Banana
 • Cherry
 • Peach
 • Mango
 • Orange
 • Strawberry
 • Mix

A new series of compact celosia, early flowering, compact and well branched. Large tight flower heads in strong colours. Well suited to packs and small container planting.

Celosia - Kimono

Botanical: *Celosia plumosa*
Blooms: Spring, summer
Plant Habit: Upright
Height: 15-20cm
Spread: 10-15cm
Exposure: Full sun

Colours Available:
 • Cherry Red
 • Orange
 • Red
 • Rose
 • Scarlet
 • Yellow
 • Bright Mix
 • Mix

Dwarf series suitable for high density small pot and pack production. Great uniformity across the colours and a fast finishing crop.

Digitalis - Dalmation

Botanical: *Digitalis purpurea*
Blooms: Spring, summer
Plant Habit: Upright compact
Height: 40-50cm
Spread: 30-35cm
Exposure: Full sun/part shade

Colours Available:
 • Crème
 • Purple
 • Rose
 • White
 • Mix

The fastest digitalis on the market, first year flowering, in striking colours. Dalmation is uniform in height and early flowering across the series. It is well branched with a compact habit and strong colours on good quality stems. Brilliant for large containers, makes a striking effect at retail.

Gerbera - Festival

Colours Available:

- Formula Mix
- Growers Select Mix
- Semi Double Mix

Botanical: *Gerbera jamesonii*
Blooms: Spring, summer, autumn
Plant Habit: Compact
Height: 25-30cm
Spread: 15-20cm
Exposure: Full sun\part shade

Can be grown year ROUND
 Festival offer a complete colour range with uniformity in flowering time and habit, and come in a variety of flower types. Can be grown year round and offer a high bud count at time of sale.

Gerbera - Mega Revolution

Botanical: *Gerbera jamesonii*
Blooms: Spring, summer, autumn
Plant Habit: Compact
Height: 30-40cm
Spread: 20cm
Exposure: Full sun\part shade

Mega Revolution produces vigorous, bushy plants with very large flowers, making it ideal for 140mm and larger containers. Good range of bright colours.

Geranium Horizon - Picotee Mix

Botanical: *Pelargonium x hortorum*
Blooms: Spring, summer
Plant Habit: Compact
Height: 30cm
Spread: 35-40cm
Exposure: Full sun

Small neat foliage and a nice blend of pretty picotee flowers.

Geranium - Apache

Colours Available:

- Appleblossom
- Deep Rose
- Scarlet
- Violet
- White
- Mix

Botanical: *Pelargonium x hortorum*
Blooms: Spring, summer
Plant Habit: Compact
Height: 15-20cm
Spread: 25-30cm
Exposure: Full sun

Apache is early flowering and basal branching. Vigorous yet compact growth in growth, and develops a profusion of large flowers. Performs well in packs and pots.

New Guinea Impatiens - Divine

Colours Available:

- Blue Pearl
- Cherry Red
- Orange Green Leaf
- Pink
- Scarlet Red
- White Blush
- Mystic Mix
- Burgundy
- Lavender
- Orange Bronze Leaf
- Scarlet Bronze Leaf
- Violet
- Mix
- Salsa Mix

Botanical: *Impatiens hawkeri*
Blooms: Spring, summer, autumn
Plant Habit: Compact
Height: 25-35cm
Spread: 25-30cm
Exposure: Part shade

A fantastic NGI series from seed, Divine offers a great colour range, fast crop time, large flowers, superior performance and mildew resistance. The flowering window across the colours is 7 to 10 days, allowing good options and ability to program.

Hypoestes - Splash

Colours Available:

- Pink
- Rose
- Mix
- Red
- White

Botanical: *Pelargonium x hortorum*
Blooms: Spring, summer
Plant Habit: Compact
Height: 24-45cm
Spread: 30-35cm
Exposure: Semi shade

Quick crop with beautiful speckled foliage, Splash is ideal for high density 100mm pot programs. Great for a shaded spot in the garden or as a table or patio decorator item.

Impatiens - Athena

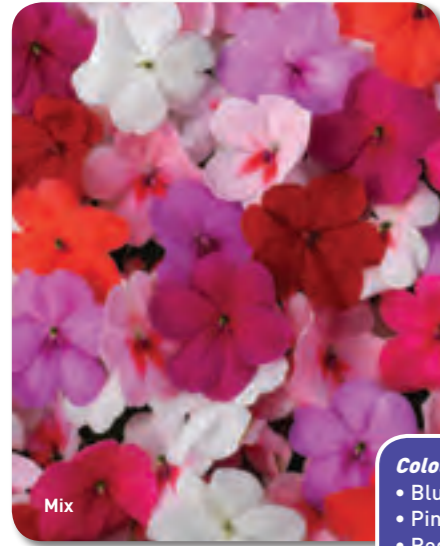

Botanical: *Impatiens walleriana*
Blooms: Spring, summer, autumn
Plant Habit: Compact spreading
Height: 25-30cm
Spread: 35-40cm
Exposure: Part shade

The only semi double seed Impatiens on the market, Athena has a spreading habit and a strong colour range that makes it stand out at retail and in the landscape.

Colours Available:

- Appleblossom
- Orange
- Red
- Mix
- Bright Purple
- Orange Flash
- Red Flash

Impatiens - Impreza

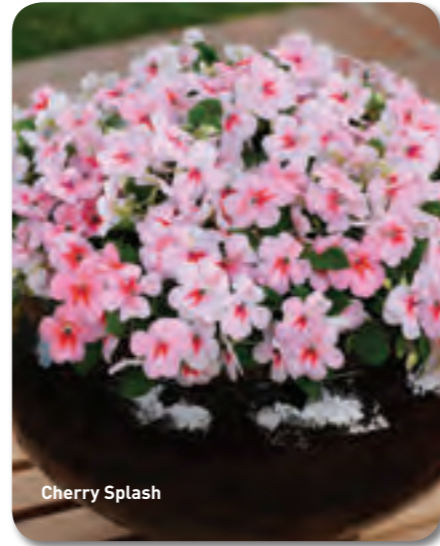

Botanical: *Impatiens walleriana*
Blooms: Spring, summer, autumn
Plant Habit: Compact spreading
Height: 15-20cm
Spread: 30-35cm
Exposure: Part shade

Grower and retail friendly series which offers a streamlined range of top selling colours. Bred to stay compact in production and on the retail bench, giving better shelf life. Easy to manage with less PGR's required.

Colours Available:

- Blue Pearl
- Pink
- Red
- Salmon
- White
- Pastel Mix
- Cherry Splash
- Punch
- Rose
- Violet
- Mix

Cherry Splash

Impatiens - Super Elfin

Botanical: *Impatiens walleriana*
Blooms: Spring, summer, autumn
Plant Habit: Compact spreading
Height: 20-25cm
Spread: 30-35cm
Exposure: Part shade

Uniform habit, plant vigour and timing across a wide range of colours make Super Elfin the most popular Impatiens series on the market.

Colours Available:

- Apricot
- Bright Orange

- Seaside Mix

Rose

Lobelia - Regatta

Colours Available:

- Lilac
- Midnight
- Sapphire
- White
- Mix

Botanical: *Lobelia erinus*
Blooms: Spring, summer, autumn
Plant Habit: Compact spreading
Height: 20-25cm
Spread: 25-30cm
Exposure: Part shade

Early flowering trailing series, vigorous and ideal for baskets and containers.

Marigold - Durango

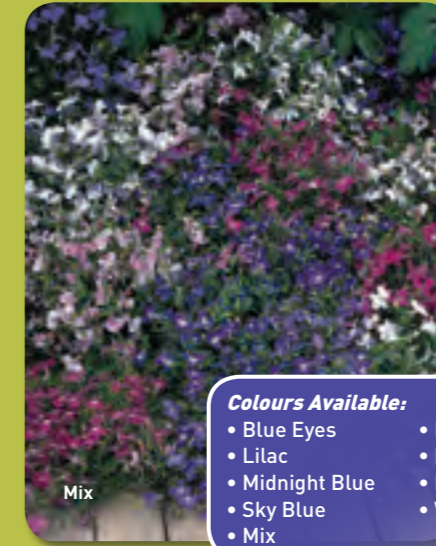

Colours Available:

- Bee
- Flame
- Orange
- Tangerine
- Yellow
- Bolero
- Gold
- Red
- Mix

Botanical: *Tagetes patula*
Blooms: Spring, summer
Plant Habit: Compact
Height: 25-30cm
Spread: 15-20cm
Exposure: Full sun

Early blooming Durango sets the standard for anemone type marigolds. Produces large flowers on strong stems in a well matched 5 to 7 day window across all colours.

Lobelia - Riviera

Colours Available:

- Blue Eyes
- Lilac
- Midnight Blue
- Sky Blue
- Mix
- Blue Splash
- Marine Blue
- Rose
- White

Botanical: *Lobelia erinus*
Blooms: Spring, summer, autumn
Plant Habit: Compact
Height: 15cm
Spread: 20cm
Exposure: Part shade

Extra early flowering compact series with a vigorous ball shaped habit, ideal for pot programs.

 - Wild Rose Mix
 - Mix

Botanical: *Petunia x hybrida*
Blooms: Spring, summer
Plant Habit: Compact
Height: 25-30cm
Spread: 25-40cm
Exposure: Full sun

Dreams offers grandiflora performance in all colours with a narrow 5-7 day flowering window. Excellent garden performance and botrytis tolerance.

Petunia - Explorer

- Colours Available:**
- Blue
 - Lavender
 - Pink
 - Red
 - White
 - Coral
 - Magenta
 - Purple
 - Rose
 - Mix

Botanical: *Petunia x hybrida*
Blooms: Spring, summer
Plant Habit: Spreading
Height: 20cm
Spread: 90cm
Exposure: Full sun

Brilliant landscape ground cover variety with early flowering and long season colour.

Petunia - Tango

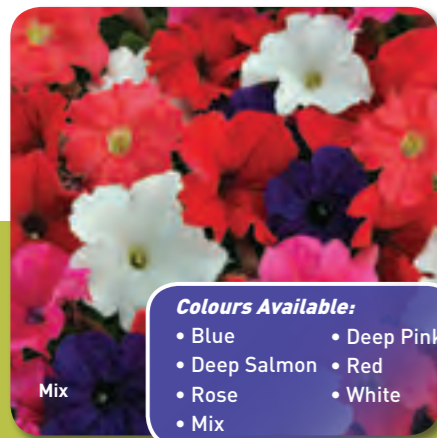

- Colours Available:**
- Blue Star
 - Burgundy Star
 - Red Star
 - Rose Star

Botanical: *Petunia x hybrida*
Blooms: Spring, summer
Plant Habit: Spreading
Height: 15-20cm
Spread: 25-30cm
Exposure: Full sun

Early flowering grandiflora series on a compact, well branched plant.

Petunia - Ez Rider

- Colours Available:**
- Blue
 - Deep Salmon
 - Rose
 - Mix
 - Deep Pink
 - Red
 - White

Botanical: *Petunia x hybrida*
Blooms: Spring, summer
Plant Habit: Compact
Height: 15-25cm
Spread: 20-30cm
Exposure: Full sun

Controlled growth petunias buy time and flexibility from grower to consumer. Grandiflora Ez Rider is a more controlled plant requiring less PGR's. Delivers better shelf life and holdability for the grower and retailer. Tight bloom window across all colours for easy shipping and selling.

Petunia - Espresso Grande

- Colours Available:**
- Peach
 - Purple

Botanical: *Petunia x hybrida*
Blooms: Spring, summer
Plant Habit: Compact
Height: 15-25cm
Spread: 20-30cm
Exposure: Full sun

Two extra colours to complement the EZ rider range. Same controlled plant habit, same great shelf life and less requirement for PGR's.

Petunia - Espresso

- Colours Available:**
- Deep Rose
 - Sweet Pink
 - Ruby

Botanical: *Petunia x hybrida*
Blooms: Spring, summer
Plant Habit: Compact
Height: 15-25cm
Spread: 20-30cm
Exposure: Full sun

Some extra colours to complement the Lo rider range. Same controlled plant habit, same great shelf life and less requirement for PGR's.

Portulaca - Happy Hour

- Colours Available:**
- Banana
 - Deep Red
 - Lemon
 - Peppermint
 - Rosita
 - Coconut
 - Fuchsia
 - Orange
 - Mix

Botanical: *Portulaca grandiflora*
Blooms: Spring, summer
Plant Habit: Compact
Height: 20-25cm
Spread: 25-30cm
Exposure: Full sun

Bred to bloom up to 2 weeks earlier than other portulaca. Tight mounded plants, easy to pack and ship. Well branched with good flowering. Large, double blooms in bright colours.

Portulaca - Happy Trails

- Colours Available:**
- Deep Red
 - Orange
 - Pink
 - Rosita
 - White
 - Fuchsia
 - Peppermint
 - Primrose
 - Yellow
 - Mix

Botanical: *Portulaca grandiflora*
Blooms: Spring, summer
Plant Habit: Trailing
Height: 15-25cm
Spread: 35-45cm
Exposure: Full sun

The shortest photoperiod on a trailing portulaca available, up to 2 weeks earlier than other varieties. Great colour range and creates a fantastic spread in the garden.

spring seed highlights

Salvia - New Dimension

Colours Available:

- Blue
- Rose

Botanical: *Salvia nemerosa*
Blooms: Spring, summer
Plant Habit: Compact
Height: 20-25cm
Spread: 15-20cm
Exposure: Full sun

The deepest blue and rose salvias available from seed. These two are well matched, with compact well branched habits and strong coloured long lasting flowers. First year flowering perennial which need no vernalisation or PGR's.

Salvia - Vista

Colours Available:

- Lavender
- Purple

- Mix

Botanical: *Salvia splendens*
Blooms: Spring, summer
Plant Habit: Compact
Height: 25-30cm
Spread: 20cm
Exposure: Full sun

Dense, well packed flower spikes and dark green foliage. Keep growing and hold their colour all season long. Good heat tolerance and a tight flowering window across the colours.

vegetable seed highlights

Beans - Bush

Botanical: *Phaseolus vulgaris var. nanus*
Days to harvest: 55

This high yielding bushy plant produces dark green 12 to 15cm plump straight pods with white seeds.

Beans - Climbing

Botanical: *Phaseolus vulgaris var. nanus*
Days to harvest: 70

Long straight stringless beans, dark green skin. Very vigorous under full sun in warm climates. Long harvest time.

Beans - Kentucky Wonder

Botanical: *Phaseolus vulgaris var. nanus*
Days to harvest: 70

Tall climbing variety with oval, thick, gently curved pods.

Beans - Royal Burgundy

Botanical: *Phaseolus vulgaris*
Days to harvest: 70

Purple bush bean with green foliage and purple flowers and pods 15cm long.

Beans - Strike

Botanical: *Phaseolus vulgaris var. nanus*
Days to harvest: 45

Dwarf bushes grow to 30 to 55-cm. Widely adaptable with heavy yields. Pod size is 15cm and pod colour is green.

Broad Beans - Aquadulce

Botanical: *Vicia faba*
Days to harvest: 75

Cool weather crop, plant autumn and winter. Flowers purple and white, pods are mid green, 15 x 3cm. Plants are 90-100cm tall.

Carrot - Chantenay Royal

Botanical: *Daucus carota*
Days to harvest: 70 to 80

French heirloom variety, suitable for heavy soils. Short, broad deep red orange roots. Sweet tasting.

Carrot - Little Fingers Baby

Botanical: *Daucus carota*
Days to harvest: 50 to 60

Baby gourmet carrot, can be pulled early. Deep orange colour, develops quickly with dimensions of approx 8 x 18cm.

Carrot - Purple

Botanical: *Daucus carota*
Days to harvest: 60

Deep purple, with an orange centre. Very attractive and with a good sweet carrot taste.

vegetable seed highlights

Cucumber - *Bush Pickles*

Botanical: Cucumis sativus
Days to harvest: 48

Compact, straight cylindrical fruit, 10-13cm long, 3cm in diameter. Monoecious will not require a pollinator plant.

Cucumber - *Burpless OP*

Botanical: Cucumis sativus
Days to harvest: 55

Light green with white spines. Slight block shape 10-30cm long. Flesh is tender, ideal slicer or pickler. Good disease resistance.

Cucumber - *Crystal Salad*

Botanical: Cucumis sativus
Days to harvest: 60

Rounded cream to white smooth skinned fruit which has an excellent flavour.

Cucumber - *Lebanese*

Botanical: Cucumis sativus
Days to harvest: 55

A 13-15cm deep green fruit with good flavour.

Cucumber - *Patio Snacker*

Botanical: Cucumis sativus
Days to harvest: 53

Controlled, vigorous variety, dark green skinned fruit. Spreads 90cm-1.5m. Short, branching vines, ideal in small gardens or large pots with a small trellis. High yielding, good flavour, crunchy texture, fruit: 4cm x 20cm.

Cucumber - *Tasty Green*

Botanical: Cucumis sativus
Days to harvest: 50

Early, heavy yielding burpless type. Tolerant and resistant to downy mildew. Fruit 20cm x 6cm. Monoecious will not require a pollinator plant.

Eggplant - *Bonica*

Botanical: Solanum melongena
Days to harvest: 60 to 70

High yielding, shiny, purple fruit on a strong plant.

Eggplant - *Fairy Tales*

Botanical: Solanum melongena
Days to harvest: 50

Long lavender fruit with white stripes, produced in clusters of 3-5. Sweet fruit is best harvested at the gourmet baby stage. Ideal in patio containers and small gardens.

Eggplant - *Little Fingers*

Botanical: Solanum melongena
Days to harvest: 68

An abundance of slim, long, dark purple fruit. Grows 15-20cm in three to six per cluster. Spineless plants make picking easy.

vegetable seed highlights

Eggplant - *Market Supreme*

Botanical: Solanum melongena
Days to harvest: 110

Adaptable variety suited to all growing areas. Fruit size is 16cm x 11cm, teardrop in shape with a glossy black skin.

Eggplant - *Mini Lebanese*

Botanical: Solanum melongena
Days to harvest: 70

Compact plants suitable for patio containers or small gardens. Good flavour and high yielding fruit.

Eggplant - *Patio Baby*

Botanical: Solanum melongena
Days to harvest: 60

Compact plants produce baby sized 5-7cm long x 2.5cm diameter fruits early and often. Easy grow, easy harvest. Ideal for patio planters and small gardens.

Eggplant - *Purple*

Botanical: Solanum melongena
Days to harvest: 65

An alternative shaped to standard eggplant. Produces smooth, slender, long purple fruit up to 50cm in length.

Kale - *Kale Storm Mixture*

Botanical: Brassica oleracea
Days to harvest: 60 to 80

FIRST multi-pelleted variety available. Producers assorted textures and colours, including purple, green and blue. Edible and ornamental.

Mustard - *Red*

Botanical: Brassica juncea
Days to harvest: 21 to 45

Slow bolting variety, purplish red leaves. Strong mustard flavour. Leaves can be picked from a young stage. Grow all year.

Onion Globe - *Hybrid Red*

Botanical: Allium cepa
Days to harvest: 110

Sweet variety, stores well. Good for salad, soups or stews. Spring, summer, autumn.

Onion - *Odourless Red*

Botanical: Allium cepa
Days to harvest: 95 to 160

Short day type with large flattened globes 8-10cm in diameter. Dark, red skin, soft white flesh with red rings. Mild and sweet flavour.

Onion - *Odourless White*

Botanical: Allium cepa
Days to harvest: 95 to 160

Intermediate, late, large globe, soft to fairly firm flesh. Mild flavour with light green foliage.

vegetable seed highlights

Onion - *Salad Red*

Botanical: Allium cepa
Days to harvest: 100

Succulent summer bunching onion. Produces uniform small bulbs, mild flavour. SHORT DAY onions suited to seeding from August-mid October and again mid December-April.

Onion - *Salad White*

Botanical: Allium cepa
Days to harvest: 90

Succulent, summer bunching onion. Produces uniform small bulbs, mild flavour. SHORT DAY onions suited to seeding from August-mid October and again mid December-April.

Onion - *Spring Red Legs*

Botanical: Allium cepa
Days to harvest: 60 to 100

Can be grown all year. Plants start off green and white with the red pigment appearing about 6 weeks after sowing.

Onion - *Straightleaf*

Botanical: Allium cepa
Days to harvest: 60 to 100

Vigorous standard bunching spring onion, ideal for Spring, Winter and Autumn production.

Onion - *Torpedo Red*

Botanical: Allium cepa
Days to harvest: 120

Pungent, football shaped onion with a mild, sweet flavour.

**fresh
varieties
fresh
choices**

Pak Choi - *Green Stem*

Botanical: Brassica rapa
Days to harvest: 45 to 50

Plant can be harvested at an early stage. Grow all year round.

Pak Choi - *White Stem*

Botanical: Brassica rapa
Days to harvest: 45 to 50

Plant can be harvested at an early stage. Grow all year round. Broad green leaves with a vivid white stem.

vegetable seed highlights

Pea - *Massey Gem*

Botanical: Pisum sativum
Days to harvest: 80 to 100

Dwarf 50cm plant suited to all areas. Produces large pods containing up to 8 peas and is considered the sweetest of the shelling pea varieties.

Sweetcorn - *Bicolour*

Botanical: Zea mays
Days to harvest: 60 to 80

Bicolour variety of Suoersweet corn, producing very sweet cobs, to 20cm with white and yellow kernels. Good disease resistance and plants grow to 180-200cm.

Sweetcorn - *Gold*

Botanical: Zea mays
Days to harvest: 60 to 80

Old style sweetcorn with excellent taste. Produces 20cm kernels with great flavour and a bright golden colour.

Wasabi - *Salad*

Botanical: Diplotaxis eruroides
Days to harvest: from 21

Wasabi Salad is a taste sensation, with an exciting burst of wasabi flavour. Perfect as a salad addition. Very quick crop, flavour is best when leaves are young.

Watermelon - *Orange Bell*

Botanical: Citrullus lanatus
Days to harvest: 70

Mini orange fleshed seeded watermelon with early maturity that can be grown in cooler areas.

Watermelon - *Red Chief*

Botanical: Citrullus lanatus
Days to harvest: 70

Elongated shaped watermelon with average size 7-9 kg. Deep red flesh, seeded but with only two rows of seed. Strong vigorous vine.

Watermelon - *Firestone*

Botanical: Citrullus lanatus
Days to harvest: 70

Large seedless round watermelon with improved colour and flesh density.

Watermelon - *Snooker*

Botanical: Citrullus lanatus
Days to harvest: 70

Mini red seeded watermelon with early maturity that can be grown in cooler areas.

strawberry seed highlights

Strawberry Beltran - White

Botanical: *Fragaria annannassa*

Beltran has a cascading habit, good for basket production. Big semi double white flowers, some runners. Heavy fruiting, with high levels of vitamin C.

Strawberry Elan - White

Botanical: *Fragaria annannassa*

Great cascading habit makes this white flowered variety ideal for basket production. Fruit has high levels of sugar which give it a delicious taste. Vitamin C levels are 30 - 50% higher than other everbearing varieties.

Strawberry Roman - Pink

Botanical: *Fragaria annannassa*

Eye catching appleblossom pink flowers make this a standout in the garden or in patio containers. Produces runners with fruit which is medium in size and oblong in shape, with a deep red colour.

Strawberry Tarpan - Rose

Botanical: *Fragaria annannassa*

Intense deep rose flowers, cascading habit, producing extremely aromatic sweet, large red fruit. Perfect for containers and baskets.

Strawberry Toscana - Rose

Botanical: *Fragaria annannassa*

A strong plant with several runners. Large, deep rose flowers. Flowering and fruiting begins early in the season continuing on the runners. Abundant production of conical, mid size fruits through the whole of summer. Fruits are juicy and sweet flavoured.

Strawberry Loran - Rose

Botanical: *Fragaria annannassa*

Compact well branched plants. Early white flowering with large deep red aromatic fruit. Few runners, will keep its compact habit in the garden.

Strawberry Merlan - Pink

Botanical: *Fragaria annannassa*

Compact plant and early to flower. Merlan has large pink flowers, with conical mid sized fruit. Heavy bearer all summer long.

Strawberry Tristan - Rose

Botanical: *Fragaria annannassa*

Compact plant with abundant large deep rose flowers. Few runners, this is a high yielding variety with biconical mid sized fruit.

strawberry seed highlights

Strawberry - Fresca

Botanical: *Fragaria annannassa*

Day length neutral medium sized fruit on runnerless plants. Suitable for pot production.

Strawberry - Temptation

Botanical: *Fragaria annannassa*

Early and large fruited, almost entirely without runners. Good for punnets and packs.

Strawberry Rainbow - Treasure

Botanical: *Fragaria annannassa*

White, pink and deep rose flowers, suitable for punnets, packs and hanging baskets.

Zucchini - Black Max

Botanical: *Cucurbita pepo*

Days to harvest: 60 to 62

Round dark green zucchini with large flower. Prolific yielder. Tolerant to sunburning.

Zucchini - Blackjack

Pink

Botanical: *Cucurbita pepo*

Days to harvest: 60 to 80

Long slender black to dark green zucchini with a high yield. Fruit can be harvested in as little as 30 days after planting in summer months.

Zucchini - Easy Pick Gold

Botanical: *Cucurbita pepo*

Days to harvest: 42

Open habit with very few spines. Easy, continuous harvest simply twist to pick. Produces smooth textured fruit in gold and green that can be grown together. Harvest fruit from a very small size up to 25cm.

Zucchini - Goldrush

Botanical: *Cucurbita pepo*

Days to harvest: 60

Slender zucchini, golden in colour with a slight green stem attachment. Prolific in fruiting. Flavour is similar to green fruiting varieties.

Zucchini - Lebanese

Botanical: *Cucurbita pepo*

Days to harvest: 60

A club shaped zucchini with a light, slightly speckled skin colour. Fruit are very uniform and semi spineless.

Zucchini - Easy Pick Green

Botanical: *Cucurbita pepo*

Days to harvest: 42

Open habit with very few spines. Easy, continuous harvest simply twist to pick. Produces smooth textured fruit in gold and green that can be grown together. Harvest fruit from a very small size up to 25cm.
