

# BUSH GEMS®

— Kangaroo Paw —

## ANIGOZANTHOS BUSH CORAL

Anigozanthos Bush Gems are a spectacular, versatile range of water-saving, easy care plants. These varieties offer spectacular colour, profuse flowering and a range of heights and exceptional quality. Use as a potted feature plant or en-masse in the garden to attract native birds.

Bush Coral is an attractive medium height Kangaroo Paw with strong branched flower stems that contrast beautifully with green spreading foliage. With its vivid flower colour and high disease tolerance it is a very long-lived variety that flowers year-round. A perfect feature plant for any garden.

### HIGHLIGHTS:

- Drought hardy once established
- Low maintenance
- Spectacular flower colour
- Long flowering
- Can be used as cut flower in a vase

<b>Species</b>	<i>Anigozanthos hybrid</i>
<b>Common name</b>	Kangaroo Paw
<b>Produced from</b>	Tissue culture
<b>Height/Width</b>	1m / 80cm
<b>Habit</b>	Naturally well branched, spreading habit
