

Kings Park Royale PRe

Anigozanthos

Bred by the team at Kings Park Botanical Gardens WA led by Digby Growns, Kings Park Royale exhibits unique purple/red flowers with a warm orange/red base. This variety is a colour breakthrough with flower colours never before seen in Kangaroo Paw.

Kings Park Royale is a short lived perennial that is well suited to tub and pot displays. It has so much to offer gardeners - long lasting bursts of colour on a neat plant that will attract birds to the garden and add interest to all garden styles.

This variety will perform best in a dry climate in well drained soil. Flowers may fade in direct sunlight.

Notes from the Ramm Botanicals R&D Team:

- Superior quality
- Drought hardy once established
- Short lived perennial
- Soft coloured flowers
- Unique colour breakthrough
- Suitable for planting in a tub or as a feature plant in patio pots undercover.
- Have a 2 week vase life as a cut flower
- Attractive to nectar eating birds and insects

Key Information

Height	60cm
Width	45cm
Tray size	Plug stock only available from Ball Australia: 03 9798 5355
Price per plug	
Release date	January 2019

*For more information, contact Ramm Botanicals:
T: 02 4351 2099 E: ramm@ramm.com.au*

TECHNICAL DATA**Anigozanthos *Kings Park Royale* PBR_e**

GENUS/SPECIES	<i>Anigozanthos hybrid</i>
VARIETY	Kings Park Royale PBR _e
COMMON NAME	Kangaroo Paw
PRODUCED FROM	TC
KEY NOTES/ATTRIBUTES	Short-lived variety, purple/red flowers with a warm orange/red base.
HEIGHT	60cm
WIDTH	45cm
HABIT	Dwarf habit with unbranched stems
MAINTENANCE	Remove dead stems and cut old flowering stems back to their base to encourage repeat flowering.
SEASONAL CLIMATE ZONE	Zones 3 to 4
RECOMMENDED POT/PLUG RATIO	1 plug per 140-175mm pot
FLOWERING PERIOD	Late winter to early summer
GROWING MEDIA PH RANGE	pH 6.0-6.5. Well drained soil
WATERING	Avoid over watering especially when plants are young. Increase watering as plants come into flower.
FERTILISER	Good quality controlled-release fertiliser is suitable.
PESTS & DISEASES	Snails and slugs are most common. Kangaroo paw can be affected by rust or ink spot disease. Remove any badly affected leaves.
FINISHING TIMES	In 140mm pot, 12-16 weeks
LIGHT REQUIREMENT	Full sun

Notes:

- Produced by tissue culture under ultra-hygenic conditions to ensure disease-free and consistently high plant quality.
- Very tough nature. Low maintenance and reliable plants.
- Ideal for cut flower production, gardens and pots.
