

# Tourmaline Bush Mandevilla

Part of the Diamantina™ Collection of genetics bred by mandevilla and dipladenia expert Lannes of France. These sun and heat-loving varieties are earlier to bloom, with better branching and blooming capacity than the competition. Bold, beautiful blooms on a unique, non-vining habit are perfect for gardens, smaller containers, patio pots and mixed combinations. Although a trellis is not necessary, a support can be used to encourage climbing. A great option for mandevilla programs!  
 Blooms are a lovely light pink!
