

# Cadet Upright™ Verbena

Flowers one week earlier than other upright verbena on the market. Compared to the competition, this verbena has the most uniform habit across the series. Features the same heat performance as EnduraScape™ in a compact patio-pot habit. All colors can be treated the same culturally. Proven superior powdery mildew resistance when compared to the competition. Ideal for quart and high-density, pot-tight production, as they won't tangle on the bench.

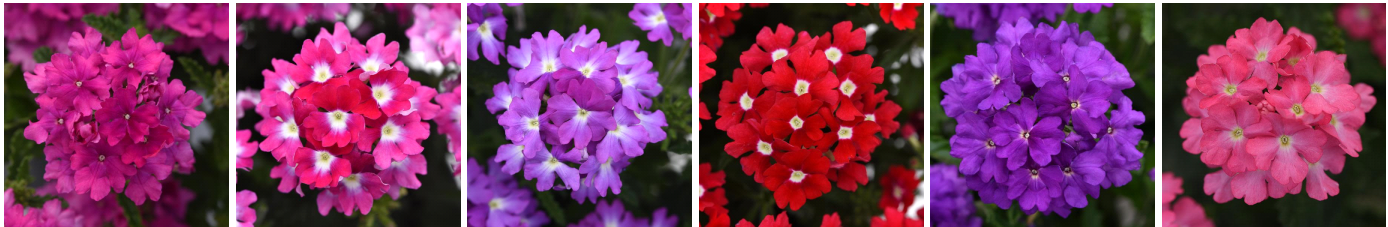

Richer hot pink color with a better habit and less fade.
